PROFILE

Motivated, self-starting problem solver with a passion for code and design, who is also dedicated to lifelong learning. I possess a positive, team-oriented attitude with excellent communication and organizational skills. Seeking Full stack developer position focused on building Flutter and Web applications.

EMPLOYMENT HISTORY

Flutter Developer, Cloud next technologies, Hyderabad
Feb 2022 – Oct 2022

- Designed, implemented, and tested Flutter and Dart code using Provider pattern for IOS, Android, and Web.
- Designed and developed high-volume, low-latency applications for mission-critical systems, delivering high availability and performance.
- Contributed to all phases of the development lifecycle concept, design, build, deploy, test, release to app stores, and support.
- Used Flutter Provider to handle all UI and business logic interactions.
- Used RESTful API services and App Sync for retrieving, updating, and deleting data usually in JSON.
- Incorporated the Push Notification feature using Firebase Messaging to provide user alerts based on their account settings to send notifications.
- Designed user experience frameworks applicable to multiple screen sizes, including both iPhone and iPad
- Used google API to autocomplete address, get user location, and google map integration.
- Integrated razor pay payment and QR-based payments.

INTERNSHIP

Flutter Developer Intern, Unio labs, Hyderabad
Sep 2021 – Dec 2021

- Designed responsive and reusable widgets for IOS, Android, and web.
- Integrated third-party packages into application.
- Troubleshooted, debugged, and upgraded existing third-party software's.
